

THE BELLE GREVE ISSUES & QUESTIONS FOR THE PROTESTERS
27/11/06

- 1) Global warming , rising sea levels and storm surges and views

*What are their proposals to prevent flooding of the Bouet and Les Banques?
Who is going to pay for the 4 metre high sea wall that will inevitably be needed?
What's it going to do to their view?
Do nothing and suffer flooding and collapsing house prices on the sea front. The insurance companies will withdraw insurance.*

What are the protesters' proposals?

- 2) Conservation & Removing Pollution From the Bay

We are proposing to enhance the diversity of marine life by making one or both of the 60-70 acre lagoons, marine wildlife reserves and invest time and money in their care and management.

We are proposing to fund and cross-subsidise the sewage treatment plant.

What are the protesters' proposals?

- 3) Traffic

Are the seafront householders happy with the bottlenecks? Our proposal would reduce the traffic by 50%.

What are the protesters' proposals?

THE MENU & THE BIG PICTURE

The protesters are focussing on Belle Greve which is their democratic right but the Belle Greve proposals are only one of five in the vision.

A CHALLENGE TO THE ORGANISERS

Meet and discuss their concerns and issues properly and see if we can't work together for the common good of themselves and the Island.

Let common sense prevail and remove the sensationalism of their approach.
